EXPERIENCE

Lampa Software Middle Fullstack Developer 01.06.2023 - present

Tools and technologies:
TypeScript, React, SvelteKit, Angular, NestJS, Mobx, Redux Toolkit, Mantine, Ant Design, Framer Motion, lottie, Stripe, NodeJS, WebSocket, Typeorm, JWT, Google Auth, Jira, Slack, Trello, Jenkins

Project responsibilities:
- Participate in implementing and improving server side functionality. Writing API logic for the service.
- Drove system resilience by implementing secure APIs. Developed endpoints for communication between front-end and backend systems. Implemented business logic for optimized functionality and enhanced user interactions.
- Managing and prioritizing responsibilities to align with project goals and timelines.
- Identified and swiftly resolved intricate bugs. Collaborated seamlessly with QA teams to fortify applications against potential challenges.
- Ensured applications functioned seamlessly across diverse web browsers. Troubleshot and resolved browser-specific issues.
- Created engaging animations to enhance the user interface, fostering dynamic and delightful interactions.
- Led team briefings to share insights on cutting-edge technologies.

Biveri Middle Front-end Developer 01.11.2021 - 01.06.2023

Tools and technologies:
TypeScript, React, Git, ClickUp, Axios, Ant Design, Mobx, i18n

Project responsibilities:
- Managed the development of the project from scratch, taking charge of the entire project lifecycle from conceptualization to implementation.
- Conducted meticulous code reviews, enforcing coding standards, identifying areas for improvement, and ensuring the overall quality of the codebase.
- Provided mentorship and guidance to junior developers, fostering their professional growth and ensuring alignment with best practices and coding standards.
- Developed and maintained a repository of reusable code components, contributing to efficiency and consistency across projects.

Arixess Junior Front-end Developer 01.03.2020 - 01.11.2021

Tools and technologies:
TypeScript, React, Git, i18n, Axios, Material Design, Redux Toolkit, Jira

Project responsibilities:
- Collaborated with cross-functional teams to ensure seamless integration and effective communication throughout the development process.
- Adapted to changing projects requirements and contributed to the delivery of high-quality software in iterative cycles.
- Took the lead in implementing new features, contributing to the continuous improvement of applications functionality.
